

Randy Mercer, Director of HSE & Risk Management, Mullen Group Ltd. (left) and Kevin Pollock, driver with Hi-Way 9 Group of Companies

I am pleased to announce the winner of the 2020 Grand Prize Safety Award. This recognition is truly a group effort. Participation and buy-in from the entire team is a fundamental requirement for Safety success.

Congratulations to Reg Trentham, Jerry Allen and the whole Hi-Way 9 EAC team and everyone in the organization at ALL terminals that contributed to this successful year. Without Everyone Pulling together this doesn't work. I would be remised if I did not mention the extremely hard work over the last few years of Raelene Pears, Todd Allen and Leah Scheer. Thank you for your passion and focus on all things HSEMS.

2020 was a banner year for Hi-Way 9. Their leadership and commitment towards nurturing a world class safety culture has been embedded in every employee and has produced continuous improvement. These accolades are well deserved. Focusing on continuous improvement has been a staple in a culture that demands excellence each and every year.

On behalf of the Mullen Group, congratulations Hi-Way 9 Group of Companies on this well-deserved recognition.
