BOARD GUIDELINES

While the Board Mandate defines the specific roles and responsibilities of the Board, the following provides an outline of the key guidelines governing how the Board will operate to carry out its duties of stewardship and accountability.

1. The Board-Management Relationship

Although the Board is called upon to "manage" the business by law, this is done by proxy through the Chair and Senior Executive Officer ("**Chair & SEO**"), who is charged with the day-to-day leadership and management of Mullen Group.

The Chair & SEO's primary responsibility is to lead Mullen Group, formulate the company's policies and proposed actions and to present them to the Board for approval. The Board approves the goals of the business, the objectives and policies within which it is managed, and then steps back and evaluates the performance of Mullen Group. Reciprocally, the Chair & SEO keeps the Board fully informed of Mullen Group's progress towards the achievement of its goals and of all material deviations from the goals or objectives and policies established by the Board in a timely and candid manner.

In conjunction with good corporate governance practices and to ensure that the business of Mullen Group is managed effectively with consideration to ensuring that the Company maintains a SEO succession plan, the Board has approved the establishment of an Executive Committee consisting of Mullen Group senior management. In the event that the Chair & SEO is unable to fulfill his duties the Board shall appoint an interim SEO to lead Mullen Group and oversee the Executive Committee until a permanent successor is appointed by the Board.

Once the Board has approved the goals, strategies and policies it acts in a unified and cohesive manner in supporting and guiding the Chair & SEO.

2. Mandates and Terms of Reference

On an annual basis, the Compensation, Nomination and Governance Committee ("**CNG Committee**") reviews the Board Mandate, the CNG Committee Mandate, the Audit Committee Mandate, and the Terms of Reference for the Chair & SEO. The CNG Committee proposes material changes to the Board for approval.

3. Corporate Strategy

Management is responsible for the development of an overall corporate strategy to be presented to the Board. The Board's role is to ensure there is a strategic planning process in place, and then review, question, validate, and ultimately endorse the strategy and monitor its implementation.

4. Principal Risks

The Board will have a continuing understanding of the principal risks associated with the business of Mullen Group. It is the responsibility of management to ensure the Board and its committees are kept informed of changing and developing risks. The principle mechanisms through which the Board reviews risks are:

- annual, comprehensive Business Risk Assessment Reports;
- ongoing reports by the Executive Committee;
- the strategic planning process; and
- the Audit Committee.

5. Succession Planning and Management Development

The Board considers succession planning and management development to be an ongoing process that includes annual reports to the Board by the Chair & SEO. In the event of unexpected incapacity of the SEO, the Board shall appoint an interim SEO until a permanent successor is appointed by the Board. The CNG Committee considers succession issues and planning annually.

6. The Chair of the Board

The position of Chair of the Board is currently held by a member of the Board who is not considered to be an independent director within the meaning of National Instrument 52-110. However, the CNG Committee's Mandate duly appoints the CNG Committee's Chair as the Lead Director of the Board and sets forth the responsibilities associated with such role. As all members of the CNG Committee must be independent, the appointment of the Lead Director is one of several mechanisms within Mullen Group's governance structure that enables the Board to function independently of management when necessary.

7. Committees

The Board delegates certain duties and responsibilities to specialized committees from time to time. Committees review strategies and monitor policies developed by management that relate to their specific mandates. They examine proposals and, where appropriate, make recommendations to the full Board. Committees do not take action or make decisions on behalf of the Board unless specifically mandated to do so.

Each committee operates according to a Board-approved mandate outlining its duties and responsibilities. The current committee structure includes:

- the Audit Committee; and
- the CNG Committee.

This structure is subject to change from time to time as the Board considers which of its responsibilities will best be fulfilled through a more detailed review of matters at the committee level.

8. Committee Chairs and Committee Members

The CNG Committee is responsible for annually proposing the leadership and membership of each committee. In preparing recommendations the CNG Committee will consult with the Chair & SEO and take into account director's independence (as defined under NI 52-110), preferences, skills and experience of each director. Committee Chairs and members are appointed by the Board at the first Board meeting after the annual shareholders' meeting, or as needed to fill vacancies during the year.

The Audit Committee and the CNG Committee will be comprised entirely of independent directors.

9. Committee Meetings

Each committee's meeting schedule will be determined by its Chair and members based on the committee's work plan and mandate. The committee Chair will develop the agenda for each committee meeting. Each committee will report in a timely manner to the Board on the results of its meetings.

10. Board Meetings and Agendas

The Board meets a minimum of five times per year. Typically, this includes an annual budget meeting and a meeting each quarter.

The Chair & SEO develops the agenda for each Board meeting. Under normal circumstances, the agenda and the material will be distributed to directors the week prior to the meeting. All directors are free to suggest additions to the agenda.

11. Information for Board Meetings

Material distributed to the directors in advance of Board meetings should be concise, yet complete, and prepared in a way that focuses attention on critical issues to be considered. Reports may be presented during Board meetings by directors, management or staff, or by invited outside advisors. Presentations on specific subjects at Board meetings should briefly summarize the material sent to directors, so as to maximize the time available for discussion or questions regarding the material.

It is recognized that under some circumstances, due to the confidential nature of matters to be discussed at a meeting, it would not be prudent or appropriate to distribute written material in advance. In these situations hard copies of written material will be provided to directors at the appropriate board or committee meeting.

12. Non-Directors at Board Meetings

The Board appreciates the value of having members of the management team attend Board meetings to provide information and opinions to assist the directors in their deliberations. The Board, through the Chair & CEO, will determine management attendees at Board meetings.

13. In-Camera Meetings

The independent Directors meet "in-camera" at the end of each regularly scheduled Board meeting without management present. Additional meetings of the independent Directors may be held from time to time if the independent Directors deem necessary. This is another mechanism that facilitates the Board's ability to act independently of management when necessary.

14. Size of the Board

The size of the Board will be considered on an annual basis with a view to ensuring the Board is large enough to provide a diversity of expertise and opinion, yet small enough to allow for efficient operation and decision-making. The CNG Committee will review the number of directors annually and make recommendations to the Board as required.

15. Board Composition

It is the objective of the Board to be comprised of a majority of independent directors. The CNG Committee reviews this issue annually and makes recommendations to the Board for its approval.

A second objective of the Board is to maintain a composition that provides the best mix of skills and experience to guide the long-term strategy and ongoing business operations of Mullen Group. To achieve this objective, the CNG Committee, in consultation with the Chair & CEO, annually reviews the general and specific criteria on which candidates are to be considered for nomination to the Board. To assist in this review process, the Board refers to a skills matrix that identifies those areas of expertise that add value to Mullen Group's business functions and those personal attributes associated with effective boardroom dynamics and decision-making processes.

16. Board Commitment

It is important for Mullen Group to assure itself that directors have sufficient time and resources to commit to their duties and responsibilities as a member of the Board. Through the annual assessment process, Directors are asked to confirm that they have adequate time and resources to commit to Mullen Group. Individual directors who change the responsibility they held when they were elected to the Board must notify the Chair of the Board, who will review each notification and make a recommendation to the Board regarding the director's continuing Board membership.

17. New Director Orientation

The CNG Committee ensures, primarily through management, that the orientation program for each new director is tailored to the director's needs and areas of interest. Management ensures new directors are provided with resource materials that include, among other things, the Board Manual; company By-Laws,

corporate policies, past meeting minutes, current budget materials and the Strategic Plan. New and continuing directors may also gain insight into the nature and operation of Mullen Group's business through in-house presentations by management and Business Unit leaders, quarterly business reviews, participation in the annual budget process and periodic onsite visits to various Operating Entities.

18. Assessing the Board's Performance

The CNG Committee is responsible for conducting the annual assessment of the Board, its committees and individual directors. The review is designed to identify any areas where the directors believe the Board could make a better collective contribution to overseeing the affairs of Mullen Group and includes opportunities for both self and peer assessment.

19. Term Limits and Retirement Age for Directors

The retirement age for directors has been set at 73 years of age. The Board may, at its sole discretion, waive the retirement age for an existing director on an annual basis. The maximum length of service for directors is 15 years ("**Tenure**"). The Board may, at its sole discretion, waive the maximum tenure for an existing director on an annual basis. This maximum Tenure applies only to years served as a non-management director.

20. Board Remuneration and Mandatory Shareholdings

The CNG Committee reviews director remuneration annually and recommends changes in compensation to the Board when warranted. At this time, Mullen Group does not have any mandatory share ownership guidelines for directors. However, the rationale for these guidelines will periodically be evaluated by the Board and management. Guidelines may be adopted if they become appropriate for Mullen Group.

21. Evaluation of the Senior Executive Officers

The CNG Committee evaluates the performance of the CEO in relation to his Terms of Reference on an annual basis. The evaluation will be used by the CNG Committee in its deliberations concerning the CEO's annual compensation.

22. Levels of Authority for Management and the Board

The Board has established levels of financial authority for management. These levels are set out in the section entitled "Levels of Authority". Directors have no authority to make financial commitments for Mullen Group other than as a secondary approval.

23. Outside Advisors for Committees and/or Individual Directors

Directors and committees are authorized to obtain the services of an advisor to assist with matters involving their responsibilities as needed. A director wishing to engage an outside advisor at the expense of Mullen Group must obtain the authorization of the CNG Committee. This acts as an additional mechanism to enable directors to act independently of management when necessary.

24. Shareholder Communication

The Board has delegated the responsibility to provide information to shareholders and to respond to shareholder inquiries to management. The authorized spokespersons are identified in the External Communications and Disclosure Policy.

LEVELS OF AUTHORITY

1. Introduction

In addition to those matters that must be approved by the Board under corporate law, management is required to seek Board approval for all material matters including the issuance of additional securities of Mullen Group, the entering into of material contracts and material acquisitions and dispositions. The Board has delegated to senior management the authority to enter into various types of transactions that are of an ordinary course, subject to specified limitations. This section identifies those powers and financial authority that the Board delegates to Management such that they may efficiently carry out the day to day management of Mullen Group.

2. Delegation of Authority

The Board delegates to the Executive Committee the power to manage the business and affairs of Mullen Group, including the power to sub-delegate certain financial responsibilities and powers to other officers of Mullen Group, subject in each case to the limits of the capital expenditure budget for the then current year,

which are approved by the Board (refer to the Annual Budget Process). Commitments of Mullen Group not contemplated by the Budget are permitted but are subject to the following restrictions:

- a. The Executive Committee is authorized to commit Mullen Group to single commitments of \$10.0 million or less and total commitments for a single year of up to \$20.0 million.
- b. Any commitments greater than those contemplated above will require prior Board approval.
- c. The Executive Committee shall not, without first obtaining the approval of the Board, authorize Mullen Group to:
 - i. make any material modification of its structure;
 - ii. settle any dispute or matter in litigation representing an amount in excess \$2.0 million Canadian dollars; or

DIRECTOR COMPENSATION

The Directors are entitled to compensation for their services as directors of Mullen Group.

The compensation for non-management directors is reviewed annually by the CNG Committee and recommendations are made to the Board following a review of market data from a peer group of companies (as such are identified in Mullen Group's disclosure documents). This market data is compiled from the peer group's publicly disclosed information, which disclosure refers to the prior year and, as such, is a "**look back**" rather than a "**look forward**". The Board will consider the CNG Committee's recommendation and all approvals relating to changes in non-management remuneration will be documented by way of formal resolution/motion.

The components of Mullen Group's current compensation program for its non-management directors are outlined below and are followed by a discussion of how Mullen Group discloses director compensation in its public documents.

1. Director Fees

Non-management directors of Mullen Group are remunerated for services rendered in their capacity as directors by way of a retainer fee. A listing of the director fee amounts payable for the current year is posted on the Board Portal.

- a. Board Meeting Compensation:
 - i. An Annual Board Retainer Fee to all directors, other than the directors who are also executive officers or employees. The annual retainer is paid semi-annually in January and May.
- b. Committee Meeting Compensation:
 - i. An Annual Committee Retainer for the Chairs of the committees. The annual retainer will be paid semi-annually in January and May.

2. Share Options

Prior to 2008, non-management directors were entitled to receive option grants as part of their remuneration. In 2008, the Board determined that option grants would no longer form part of the non-management directors' remuneration.

Mullen Group's stance on stock-based compensation may change in the future depending on whether the nature of the compensation aligns with Mullen Group's philosophy on the role that director compensation

should fulfill: that of providing appropriate incentives to directors to perform their oversight duties and responsibilities.

3. Out of Pocket Expenses

Out-of-pocket expenses related to attendance at a Board or committee meeting are paid by Mullen Group upon request.

4. Disclosure of Compensation in Public Documents

In accordance with the requirements of the CSA and the National Instruments, Mullen Group reports all fees paid to directors in its disclosure documents, including information relative to any outstanding option-based awards, share-based awards and/or incentive plan awards held by individual directors.

5. Disclosure of Director Indebtedness

The National Instruments require Mullen Group to report the indebtedness of any directors to Mullen Group. As a matter of practice, Mullen Group does not lend money to directors or otherwise allow directors to become the subject of a guarantee, support agreement, letter of credit or other similar arrangement or understanding provided by Mullen Group or any of its subsidiaries.

ASSESSMENT PROCESS

Introduction

The Board is responsible for monitoring its own effectiveness on an ongoing basis. The assessment process provides a unique opportunity to reflect on board, fellow director, key management and individual performance in light of the roles and responsibilities outlined in this manual. Mullen Group encourages all directors to be candid in their evaluation of the board structure, skills, processes and outputs such that the Board can continue to leverage strengths and address weaknesses. The director self-assessment process is supplemented through the completion of a self-evaluation in relation to the areas of expertise identified in the skills matrix on a periodic basis, which further enhances Mullen Group's ability to assess the strengths and weaknesses of the Board as a whole. The process is overseen by the CNG Committee in conjunction with the Chair & SEO.

Below, is a summary of information that directors should keep in mind when completing the assessments.

1. Board/Director Evaluation

a. Introduction

- i. The Board evaluation process is designed to provide directors with an opportunity to evaluate how the Board is operating and to make suggestions for improvement.
- ii. The evaluation process is designed primarily to provide constructive input for the improvement of the Board "as a whole or as a unit".
- iii. The questionnaire analyzes the organization and performance of the Board against the description of the Board's duties and responsibilities.
- iv. The questionnaire provides an opportunity for each director to evaluate his or her own performance as well as that of his/her peers.

b. Process

A standard form questionnaire has been developed by the Board for use in its evaluation. Such questionnaire is periodically reviewed and updated as necessary taking into consideration the evolving role of the Board and individual directors, the National Instruments and other regulatory requirements governing Mullen Group. The assessment questionnaire may be used in the following ways:

- i. Informally by each director as a framework for evaluating the Board on an ongoing basis;
or
- ii. More formally, through the CNG Committee, where each director completes the questionnaire annually, following which the results are summarized and reported to the Board.

2. SEO Evaluation

- a. The CNG Committee undertakes the SEO's evaluation on behalf of the Board.
- b. Mullen Group believes CNG Committee members are best equipped to undertake their assessment of the SEO if they know how the SEO evaluates his own performance against the agreed upon benchmarks of the previous year and what the SEO sees as the goals and priorities for the coming year. The SEO's self-appraisal may be written and/or may be verbally discussed with the CNG Committee in advance of their ensuing evaluation of the SEO.

3. Evaluation of the External Auditor

a. Introduction

- i. The external auditor evaluation process is designed to provide Audit Committee members with the opportunity to assess how Mullen Group's external auditors are operating.
- ii. The evaluation process is designed primarily as a checklist of considerations that deal with the calibre of the firm and team assigned to Mullen Group, their audit processes, their ability to communicate with the Audit Committee and management as well as their governance and independence from Mullen Group.

b. Process

A standard form checklist has been adopted by the Audit Committee for use in its evaluation. Such checklist is periodically reviewed and updated as necessary taking into consideration the evolving role of the auditors, the National Instruments and other regulatory requirements governing Mullen Group. The checklist may be used in the following ways:

- i. Informally by each Audit Committee member as a framework for assessing the external auditor on an ongoing basis; and/or
- ii. More formally, through the Audit Committee where each member of the Audit Committee completes the evaluation annually, following which results are discussed and a determination is made by the Audit Chair as to whether there are concerns that should be discussed with the external auditor.
